Implementing Evidence-Based Practices in Community Corrections and Addiction Treatment Nov 11 2020 Community corrections programs are emerging as an effective alternative to incarceration for drug-involved offenders, to reduce recidivism and improve public health and public safety. Since evidence-based practice is gaining recognition as a success factor in both community systems and substance abuse treatment, a merger of the two seems logical and desirable. But integrating evidence-based addiction treatment into community corrections is no small feat—costs, personnel decisions, and effective, appropriate interventions are all critical considerations. Featuring the first model of implementation strategies linking these fields, *Implementing Evidence-Based Practices in Community Corrections and Addiction Treatment* sets out criteria for identifying practices and programs as evidence. The book's detailed blueprint is based on extensive research into organizational factors (e.g., management buy-in) and external

forces (e.g., funding, resources) with the most impact on the adoption of evidence-based practices, and implementation issues ranging from skill building to quality control. With this knowledge, organizations can set realistic, attainable goals and achieve treatment outcomes that reflect the evidence base. Included in the coverage: Determining evidence for “what works.” Organization change and technology transfer: theory and literature review. The current state of addiction treatment and community corrections. Unique challenges of evidence-based addiction treatment under community supervision. Assessing suitability of evidence-based practice in real-world settings. A conceptual model for implementing evidence-based treatment in community corrections. *Implementing Evidence-Based Practices in Community Corrections and Addiction Treatment* is a breakthrough volume for graduate- and postgraduate-level researchers in criminology, as well as policymakers and public health researchers.

Probation, Parole, and Community-Based Corrections: Supervision, Treatment, and Evidence-Based Practices Apr 16 2021

Community-Based Corrections Aug 28 2019 *Community Based Corrections: A Text/Reader* is a text-reader that includes a collection of carefully selected, edited articles on community-based corrections that have previously appeared in a number of leading criminal justice academic journals. This book is

a substitute for a 'standard' community-based corrections textbook, without becoming 'standard' because it will include text and original articles along with current research. The book is divided into eleven Sections that will include 15 pages of authored text and 3-4 significant research-based articles with a policy orientation. The articles will provide the reader with a grasp of the development and current status of research on the various community-based corrections topics. Ancillaries include instructor and student resource sites. Instructors will be provided test questions and PowerPoint slides. Materials on the student study site will include self-study quizzes and extra articles for each section of the book.

Professional Lives of Community Corrections Officers: The Invisible Side of Reentry Jul 20 2021 One of the first contemporary works to bring together research focused on community corrections officers, *Professional Lives of Community Corrections Officers: The Invisible Side of Reentry*, by Faith E. Lutze, helps readers understand the importance of community corrections officers to the success of the criminal justice system. The author brings the important work of these officers out from the shadows of the prison and into the light of informed policymaking, demonstrating how their work connects to the broader political, economic, and social context. Arguing that they are “street-level boundary spanners” who are in the best position to lead effective reentry initiatives built on interagency

collaboration, the author shows how community corrections officers can effectively lead a fluid response to reentry that is inclusive of control, support, and treatment. This supplement is ideal for community corrections or probation and parole courses to supplement core textbooks.

Probation, Parole, and Community

Corrections Nov 23 2021 Suggesting that all components of the criminal and juvenile justice systems are interrelated to varying degrees, this thorough study describes the objectives of probation and parole for criminally convicted adults and juveniles and whether these objectives are achieved. Helping readers deepen their understanding of these philosophies through an examination of the history of parole and probation in the United States, it describes probation and parole programs, considers various classes of offenders, and highlights several problems associated with the selection and training of probation and parole officers—including their relationships with offender-clients. It remains the only major volume of its kind to combine the standard topics in probation and parole with full coverage of recent trends in community corrections. Exceptionally well organized, it emphasizes a legalistic approach, noting key legal cases where appropriate and including our most recent U.S. Supreme Court decisions. The volume provides a complete analysis of probation, community corrections, and the sentencing process; jails, prisons, and

parole; the administration of probation and parole organizational operations; special populations of offenders and juvenile probation; and parole and program evaluation. For those involved in criminal justice, probation, parole or community corrections fields.

Encyclopedia of Community Corrections

Dec 25 2021 In response to recognition in the late 1960s and early 1970s that traditional incarceration was not working, alternatives to standard prison settings were sought and developed. One of those alternatives -- community-based corrections -- had been conceived in the 1950s as a system that might prove more progressive, humane, and effective, particularly with people who had committed

less serious criminal offenses and for whom incarceration, with constant exposure to serious offenders and career criminals, might prove more damaging than rehabilitative. The alternative of community corrections has evolved to become a substantial part of the criminal justice and correctional system, spurred in recent years not so much by a progressive, humane philosophy as by dramatically increasing prison populations, court orders to "fix" overextended prison settings, and an economic search for cost savings. Encyclopedia of Community Corrections explores all aspects of community corrections, from its philosophical foundation to its current inception. Features & benefits: 150 signed entries (each with cross references and further readings) are organized in A-to-Z fashion to give students easy access to the full range of topics in community corrections; a thematic reader's guide in the front matter groups entries by broad topical or thematic areas to make it easy for users to find related entries at a glance; a chronology in the back matter helps students put individual events into broader historical context; a glossary provides students with concise definitions to key terms in the field; a resource guide to classic books, journals, and web sites (along with the further readings accompanying each entry) guides students to further resources in their research journeys; and appendix offers statistics from the Bureau of Justice.

Sentencing Forward Sep 09 2020 This volume addresses major issues and research in corrections and sentencing with the goal of using previous research and findings as a platform for recommendations about future research, evaluation, and policy. The last several decades witnessed major policy changes in sentencing and corrections in the United States, as well as considerable research to identify the most effective strategies for addressing criminal behavior. These efforts included changes in sentencing that eliminated parole and imposed draconian sentences for violent and drug crimes. The federal government, followed by most states, implemented sentencing guidelines that greatly reduced the discretion of the courts to impose sentences. The results were a multifold increase in the numbers of individuals in jails and prisons and on community supervision—increases that have only recently crested. There were also efforts to engage prosecutors and the courts in diversion and oversight, including the development of prosecutorial diversion programs, as well as a variety of specialty courts. Penal reform has included efforts to understand the transitions from prison to the community, including federal-led efforts focused on reentry programming. Community corrections reforms have ranged from increased surveillance through drug testing, electronic monitoring, and in some cases, judicial oversight, to rehabilitative efforts driven by risk and needs

assessment. More recently, the focus has included pretrial reform to reduce the number of people held in jail pending trial, efforts that have brought attention to the use of bail and its disproportionate impact on people of color and the poor. This collection of chapters from leading researchers addresses a wide array of the latest research in the field. A unique approach featuring responses to the original essays by active researchers spurs discussion and provides a foundation for developing directions for future research and policymaking.

Community Corrections Jun 18 2021

Community corrections have undergone a revolution over the past decade. Probation and parole populations have more than doubled, and offenders have generally committed more serious crimes. Money for these programs has not increased, placing pressure on the programs to create tougher but cheaper sanctions, while at the same time promising to rehabilitate offenders and keep communities safe. During this period, new programs have been set up, among them electronic monitoring, boot camps, and house arrest - some successful, others not. This book brings together the best available information on the current context, implementation, and impact of community-based sanctions. It provides an overview of the changing face of community corrections and the debates about it, followed by commentary on and assessments of various programs.

What Works (and Doesn't) in Reducing Recidivism Jun 06 2020 This book offers criminologists and students an evidence-based discussion of the latest trends in corrections.

Over the last several decades, research has clearly shown that rehabilitation efforts can be effective at reducing recidivism among criminal offenders. However, researchers also recognize that treatment is not a "one size fits all" approach. Offenders vary by gender, age, crime type, and/or addictions, to name but a few, and these individual needs must be addressed by providers. Finally, issues such as leadership, quality of staff, and evaluation efforts affect the quality and delivery of treatment services. This book synthesizes the vast research for the student interested in correctional rehabilitation as well as for the practitioner working with offenders. While other texts have addressed issues regarding treatment in corrections, this text is unique in that it not only discusses the research on "what works" but also addresses implementation issues as practitioners move from theory to practice, as well as the importance of staff, leadership and evaluation efforts.

The Routledge Companion to Rehabilitative Work in Criminal Justice Mar 04 2020 All the world's criminal justice systems need to undertake direct work with people who have come into their care or are under their supervision as a result of criminal offences. Typically, this is organized in penal and correctional services - in custody in prisons, or in the community, supervised by services such as probation. Bringing together international experts, this book is the go-to source for students, researchers, and practitioners in

criminal justice, looking for a comprehensive and authoritative summary of available knowledge in the field. Covering a variety of contexts, settings, needs, and approaches, and drawing on theory and practice, this Companion brings together over 90 entries, offering readers concise and definitive overviews of a range of key contemporary issues on working with offenders. The book is split into thematic sections and includes coverage of: Theories and models for working with offenders Policy contexts of offender supervision and rehabilitation Direct work with offenders Control, surveillance, and practice Resettlement Application to specific groups, including female offenders, young offenders, families, and ethnic minorities Application to specific needs and contexts, such as substance misuse, mental health, violence, and risk assessment Practitioner and offender perspectives The development of an evidence base This book is an essential and flexible resource for researchers and practitioners alike and is an authoritative guide for students taking courses on working with offenders, criminal justice policy, probation, prisons, penology, and community corrections. Prisons and Community Corrections Jun 30 2022 This edited collection brings together leading international academics and researchers to provide a comprehensive body of literature that informs the future of prison and wider corrective services training, education, research, policy and practice. This volume

addresses a range of 21st century issues faced by modern corrective services including, prison overcrowding, young and ageing offenders, mental health, sexual assault in corrective facilities, trans communities in corrective services and radicalisation of offenders within corrective services. Taking a multi-disciplinary approach and drawing together theoretical and practice debates, the book comprehensively considers current challenges and future trajectories for corrective systems, the people within them and service delivery. This volume will also be a welcomed resource for academics and researchers who have an interest in prisons, corrective services practice and broader criminal justice issues. It will also be of interest to those who want to join corrective services, those who are currently training to become personnel in corrective services and related allied professions, and those who are currently working in the field.

The Global Impact of the COVID-19 Pandemic on Institutional and Community Corrections Jul 28 2019 The authors of the chapters included in this volume provide preliminary answers to questions such as: How extensive were COVID-19 outbreaks in prisons, jails, and community corrections systems globally? Which regions and countries reported the largest outbreaks? Why were prisons and jails found to be "hot spots" for the spread of COVID-19 in most countries? How did governments initially respond to COVID-19 outbreaks in their corrections systems? Did the

mitigation strategies used in each country reduce the spread of the infection in the corrections system (both in prisons and jails, and in community corrections)? Did the corrections-focused mitigation strategies used in each country have a positive or an adverse impact on public health and public safety? How likely is it that the varied short-term mitigation strategies implemented by governments will result in long-term changes in corrections policies and practices? The book includes three chapters examining the global impact of the COVID-19 outbreaks, six regional overviews, and 27 country-specific reviews, including reviews targeting 21 of the 50 largest prison systems globally. This collection will be an excellent resource for researchers, policymakers, practitioners, and the general public interested in knowing more about the nature and extent of COVID-19 outbreaks in corrections systems globally, and about the diversity of responses developed and implemented by governments from each global region. The chapters in this book were originally published as a special issue of the journal *Victims & Offenders*.

Routledge Handbook of Corrections in the United States Jul 08 2020 The Routledge Handbook of Corrections in the United States brings together original contributions from leading scholars in criminology and criminal justice that provide an in-depth, state-of-the-art

look at the most important topics in corrections. The book discusses the foundations of corrections in the United States, philosophical issues that have guided historical movements in corrections, different types of punishment and supervision, trends in incarceration, issues affecting race, ethnicity, and special populations in corrections, and a variety of other emerging issues. This book scrutinizes innovative community programs as well as more traditional sanctions, and exposes the key issues and debates surrounding the correctional process in the United States. Among other important topics, selections address the inherent discrimination within the system, special issues surrounding certain populations, and the utilization of the death penalty as the ultimate punishment. This book serves as an essential reference for academicians and practitioners working in corrections and related agencies, as well as for students taking courses in criminal justice, criminology, and related subjects.

Community Corrections Feb 01 2020 This comprehensive text, geared toward novices as well as experienced professionals in law enforcement, the courts, and institutional corrections, fills an important need in the study of community corrections. The author skillfully guides readers throughout the operation of community corrections, from pretrial supervision through the revocation process. Salient topics include: historical forces that shaped modern community corrections; its role

within the criminal justice system; how it interfaces with the community, including its impact on innocent third parties; and the responsibilities of community corrections officers. Practical case studies address issues of integrity and human dignity; international foci illuminate community corrections practices in other countries; and literary foci provide new and insightful perspectives. Ideas for research papers are offered at the end of each chapter. *Implementing Evidence-Based Practices in Community Corrections and Addiction Treatment* Oct 23 2021 Community corrections programs are emerging as an effective alternative to incarceration for drug-involved offenders, to reduce recidivism and improve public health and public safety. THE CYBERCRIME HANDBOOK FOR COMMUNITY CORRECTIONS May 18 2021

In the early 1990s, professionals began to question how to address offender computer use while on supervision, but in the past ten years, tools emerged that were specifically developed for triage and field forensics. As these were rapidly embraced, it was still unclear what professionals could look for, how to look for it, and how to interpret what they found. This unique book resolves those issues. The book provides a clear outline of what can and should be done regarding the management of offender computer use. Not only does the text help community corrections professionals understand how to monitor computer use, but it helps realize how information gained during monitoring can assist in overall case management. The book takes the reader through all the paces of managing offender cyber-risk and is meant specifically for pretrial, probation, parole, and community sanction officers. The chapters are organized by major areas, such as community corrections and cyberspace, understanding the options, condition legality, operational legality, accessing cyber-risk, computer education, principles of effective computer monitoring, search and seizure, deploying monitoring software, and online investigations.

Additionally, numerous appendices provide a wealth of information regarding model forms, questionnaires, and worksheets. This book moves the reader toward a more informed use of the technology that is now readily available to effectively manage offenders' digital behavior.

Corrections in the Community Oct 03 2022 *Corrections in the Community, Sixth Edition*, examines the current state of community corrections and proposes an evidence-based approach to making programs more effective. As the U.S. prison system approaches meltdown, options like probation, parole, alternative sentencing, and both residential and non-residential programs in the community continue to grow in importance. This text provides a solid foundation and includes the most salient information available on the broad and dynamic subject of community corrections. Authors Latessa and Smith organize and evaluate the latest data on the assessment of offender risk/need/responsivity and successful methods that continue to improve community supervision and its effects on different types of clients, from the mentally ill to juveniles. This book provides students with a thorough understanding of the theoretical and practical aspects of community corrections and prepares them to evaluate and strengthen these crucial programs. This sixth edition includes a new chapter on specialty drug and other problem-solving courts. Now found in every state, these specialty courts represent a new way to deal

with some of the problems that face our citizens, be it substance abuse or reentry to the community from prison. Chapters contain key terms, boxed material, review questions, and recommended readings, and a glossary is provided to clarify important concepts.

Global Perspectives on Reforming the Criminal Justice System May 06 2020

The often-tenuous relationship between law enforcement and communities of color, namely African Americans, has grown increasingly strained, and the call for justice has once again ignited the demand for criminal justice reform. Rebuilding the trust between the police and the citizens that they have sworn to protect and serve requires that criminal justice practitioners and educators collaborate with elected officials and commit to an open, ongoing dialogue on the most challenging issues that remain unresolved but demand collective attention and support. Reform measures are not limited to policing policies and practices, but rather extend throughout the criminal justice system. There is no denying that the criminal justice system as we know it is flawed, but not beyond repair. Global Perspectives on Reforming the Criminal Justice System provides in-depth and current research about the criminal justice system around the world, its many inadequacies, and why it

urgently needs reformation. Offering a fully fleshed outline of the current system, this book details the newest research and is incredibly important to fully understand the flaws of the criminal justice system across the globe. The goals of this book are to improve and advance the criminal justice system by addressing the glaring weaknesses within the system and discuss potential reforms including decreasing the prison population (decarceration) and improving police/community relations.

Highlighting topics that include accountability, community-oriented policing, ethics, and mass incarceration, this book is ideal for law enforcement officers, trainers/educators, government officials, policymakers, correctional officers, court officials, professionals, researchers, academicians, and students in the fields of criminal justice, criminology, sociology, psychology, addictions, mental health, social work, public policy, and public administration.
