Eccentric Entrepreneur Jul 08 2020 Julien Cahn, the son of a German Jewish émigré, was an enormously successful businessman who used his wealth to indulge his somewhat eclectic passions. He built his own cricket ground and put together what is still regarded as the finest private cricket team ever assembled (which he captained): it undertook world tours, beating national teams. He was master of three hunts. An accomplished amateur magician, he built a magnificent art deco theatre at his home, Stanford Hall, and was invited to perform at the London Palladium. He purchased Lord Byron's house, Newstead Abbey and donated it to the nation. There is even a suggestion that he assisted in mitigating the effects of Maundy Gregory's 'cash for honours' scandal. Told by his grand-daughter, this is the vivid picture of Britain in the 1930s, and of one of its most eccentric inhabitants.

Barry Goldwater and the Remaking of the American Political Landscape Jun 18 2021 Barry Goldwater lost the race for the presidency in 1964, but his conservative agenda sparked a movement that has had profound and far-reaching effects on American politics and society. This is a long-overdue reconsideration of the life, times, and legacy of a polarizing politician who is as reviled as he is revered.

[Club Government](#) Oct 30 2019 The book phenomenon of 'Club Government' in the mid-nineteenth century, when many of the functions of government were alleged to have taken place behind closed doors, in the secretive clubs of London's St. James's district, has not been adequately historicized. Despite 'Club Government' being referenced in most major political histories of the period, it is a topic which has never before enjoyed a full-length study. Making use of previously-sealed club archives, and adopting a broad range of analytical techniques, this work of political history, social history, sociology and quantitative approaches to history seeks to deepen our understanding of the distinctive and novel ways in which British political culture evolved in this period. The book concludes that historians have hugely underestimated the extent of club influence on 'high politics' in Westminster, and though the reputation of clubs for intervening in elections was exaggerated, the culture and secrecy involved in gentleman's clubs had a huge impact on Britain and the British Empire.

[A Christian in Big Business](#) Apr 04 2020 The Yankee temperament seems to be resultant of forces between shrewd bargaining and a genius for faith. Faith kept bargaining from becoming sordid, and bargaining kept faith from becoming gullible. You can't help admiring these men. They were Puritans with a Mission Street education. They could deal with Scrooge to his disadvantage, and commune with Fenelon to his edification; yet neither function violated the other. Henry Parsons Crowell was a Yankee from Cleveland. You will never measure the sagacity with which he reared great enterprises, or the devotion to his walk with God until you take time to look at his forebears—the Yankees from Connecticut. The constant aplomb of Mr. Crowell indicates a Broadcloth Background. Among his forebears were American pioneers, judges, Yale students, army officers, early business

and professional men. Added thereto were years of contacts with captains of industry, inventors, and artisans from Brooklyn to Saskatoon. The most formative of all factors, however, was the unfeigned faith he had from a child. The family altars of his forebears, the Crowells and the Parsons, glow like air-beacons across the night clear back to Colonial Days. In his own time, Mr. Crowell's fellowships were with the outstanding of all denominations: men committed to evangelical fervor, Trinitarian faith, and sound doctrine. All of the foregoing help explain his quiet power, sure touch, and unbroken equanimity.

Deer Isle's Undefeated America's Cup Crews Mar 16 2021 In 1895, emissaries from the New York Yacht Club traveled to Deer Isle, Maine, to recruit the nation's best sailors, an "All American" crew. This remote island in Penobscot Bay sent nearly thirty of its fishing men to sail "Defender," and under skipper Hank Haff, they beat their opponents in a difficult and controversial series. To the delight of the American public, the charismatic Sir Thomas Lipton sent a surprise challenge in 1899. The New York Yacht Club knew where to turn and again recruited Deer Isle's fisherman sailors. Undefeated in two defense campaigns, they are still considered one of the best American sail-racing teams ever assembled. Read their fascinating story and relive their adventure.

The Steinitz Papers Jul 20 2021 Long known as one of the greatest chess masters of the nineteenth century, William Steinitz is recognized as the first world champion. More exactly (and thanks to the efforts of the author of this book) he has been officially acknowledged as the first American world chess champion. Luckily for chess scholars, many letters and postcards survive written by Steinitz and his associates, friends and foes. After years of research, numerous personal contacts with people on three continents, and unflagging efforts to acquire any and all known letters to and from Steinitz, the author here presents in their own words a remarkable account of Steinitz and his contemporaries in the chess world of over a century ago. Notable personalities that write or are written about include Lasker, Pillsbury, Zukertort, Bird, Blackburne, Janowski, Tschigorin and Winawer. Each original letter, postcard, scrapbook item, newspaper or chess magazine article or other writing (including three lengthily-negotiated match play agreements) is described along with details of location, ownership, and circumstances of discovery. It is then printed, nearly always in full, in English (many translated from their original German by Landsberger). The author provides a running commentary on the letters and documents, which are generally chronological in arrangement, putting them in context and remarking the significance of certain points made in them. A biographical dictionary at the back of the book offers information about all the many figures who received, sent, or were mentioned in the documents or letters. Some of the games accompanying some of the letters are annotated by modern grandmaster Andy Soltis (Steinitz's annotations and insights also accompany some). Each game is illustrated. Facsimiles of some of the letters are provided.

Red Rebels Mar 28 2022 In 2004, Manchester United could proclaim itself the richest football club in the world, and boasted global commercial appeal alongside more than a decade of success on the pitch. In early 2005, American businessman Malcolm Glazer targeted a leveraged takeover of the club, and it looked set to be plunged into record levels of debt. The fans were furious. If the deal went wrong, it would threaten United's very existence, whilst the Glazers would be able to walk away without it having cost them a cent. Protests in the stands fell on deaf ears - it became increasingly clear that marches and placards wouldn't make any difference to the Glazer family. In May 2005 the takeover went ahead. In response, one group of supporters took a drastic step: rather than meekly fall into line and - through rocketing ticket prices - help fund the Glazers' aims of cashing in on Manchester United's history and traditions, they took the plunge and formed a new club that started life in the tenth tier of English football. The decision tore Manchester United's fan base apart, and caused ructions that continue to this day. This is the story of FC United of Manchester, the phenomenon born out of a supporter revolution. Established against all odds, its constitution enabled supporters to each own part of the club and have a direct say in how it was run. It also adopted a transparent manifesto and ensured it could never be sold on for profit. However, as generations that have gone before will testify, modern football is now as much a business as it is a sport. How long can a club set up in opposition to a culture of greed stay true to its principles? And in a noble attempt to do so, could it ultimately tear itself apart?

Cult Fictions Jan 14 2021 Controversial claims that C.G. Jung, founder of analytical psychology, was a charlatan and a self-appointed demi-god have recently brought his legacy under renewed scrutiny. The basis of the attack on Jung is a previously unknown text, said to be Jung's inaugural address at the founding of his 'cult', otherwise known as the Psychological Club, in Zurich in 1916. It is claimed that this cult is alive and well in Jungian psychology as it is practised today, in a movement which continues to masquerade as a genuine professional discipline, whilst selling false dreams of spiritual redemption. In *Cult Fictions*, leading Jung scholar Sonu Shamdasani looks into the evidence for such claims and draws on previously unpublished documents to show that they are fallacious. This accurate and revealing account of the history of the Jungian movement, from the founding of the Psychological Club to the reformulation of Jung's approach by his followers, establishes a fresh agenda for the historical evaluation of analytical psychology today.

In the club May 30 2022 In the club presents a comprehensive examination of social clubs across South Asia, arguing for clubs as key contributors to South Asia's colonial associational life and civil society. Using government records, personal memoirs, private club records, and club histories themselves, In the club explores colonial club life with chapters arranged thematically: the legal underpinnings of clubs; their physical locations and compositions; their financial health; the role of servants and staff as employees of clubs; issues of race and class in clubs; women's clubs; and finally clubs in their postcolonial milieus. This book will be critical reading for scholars of South Asia, graduate students, and intellectually engaged club

members alike.
