The Modern Antiquarian Nov 02 2022 Looks at megalithic sites and monuments in Great Britain
Confronting the Classics: Traditions, Adventures, and

Innovations Oct 28 2019 A National Book Critics Circle Award finalist, this is "the perfect introduction to classical studies, and deserves to become something of a standard work" (Observer).

Mary Beard, drawing on thirty years of teaching and writing about Greek and Roman history, provides a panoramic portrait of the classical world, a book in which we encounter not only Cleopatra and

Alexander the Great, Julius Caesar and Hannibal, but also the common people—the millions of inhabitants of the Roman Empire, the slaves, soldiers, and women. How did they live? Where did they go if their marriage was in trouble or if they were broke? Or, perhaps just as important, how did they clean their teeth? Effortlessly combining the epic with the quotidian, Beard forces us along the way to reexamine so many of the assumptions we held as gospel—not the least of them the perception that the Emperor Caligula was bonkers or Nero a monster. With capacious wit and verve, Beard demonstrates that, far from being carved in marble, the classical world is still very much alive.

Antiquarianisms Jul 18 2021 Antiquarianism and collecting have been associated intimately with European imperial and colonial enterprises, although both existed long before the early modern period and both were (and continue to be) practiced in places other than Europe. Scholars have made significant progress in the documentation and analysis of indigenous antiquarian traditions, but the clear-cut distinction between “indigenous” and “colonial” archaeologies has obscured the intense and dynamic interaction between these seemingly different endeavours. This book concerns the divide between local and foreign antiquarianisms focusing on case studies drawn primarily from the Mediterranean and the Americas. Both regions host robust pre-modern antiquarian traditions that have continued to develop during periods of colonialism. In both regions, moreover, colonial encounters have been mediated by the antiquarian practices and preferences of European elites. The two regions also exhibit salient differences. For example, Europeans claimed the “antiquities” of the eastern Mediterranean as part of their own, “classical,” heritage, whereas they perceived those of the Americas as essentially alien, even as they attempted

to understand them by analogy to the classical world. These basic points of comparison and contrast provide a framework for conjoint analysis of the emergence of hybrid or cross-bred antiquarianisms. Rather than assuming that interest in antiquity is a human universal, this book explores the circumstances under which the past itself is produced and transformed through encounters between antiquarian traditions over common objects of interpretation.

Our Magic Aug 19 2021 Books like this contain what may be called the raw material of the art, the processes which the magician can employ at will in building up his larger experiments in magic, each of which should be a complete play in itself. Then, when the student has found out how tricks can be done, he would do well to turn his attention to *Our Magic*, by Mr. Maskelyne and his associate, Mr. David

Devant. And from this logical treatise he can learn how experiments in magic ought to be composed. It is from this admirable discussion of the basic principles of modern magic that more than one of the points made in this paper have been borrowed. Mr. Devant calls attention to the fact that new tricks are common, new manipulative devices, new examples of dexterity and new applications of science, whereas new plots, new ideas for effective presentation, are rare. He describes a series of experiments of his own, some of which utilize again but in a novel manner devices long familiar, while others are new both in idea and in many of the subsidiary methods of execution. One of the most hackneyed and yet one of the most effective illusions in the repertory of the conjurer is that known as the *Rising Cards*. The performer brings forward a pack of cards, several of which are drawn by members of the audience and returned to the pack, whereupon at the command of the magician they rise out of the pack one after the other in the order in which they were drawn. In the oldest form in which this illusion is described in the books on the art, the pack is placed in a case supported by a rod standing on a base, and the secret of the trick lies on this rod and its base. The rod is really a hollow tube and the base is really an empty box. The tube is filled with sand, on the top of which rests a leaden weight, to which is attached a thread so arranged over and under

certain cards as to cause the chosen cards to rise when it descends down the tube; and in putting the cards into the case the conjurer released a valve at the bottom of the tube, so that the sand might escape into the box, whereby the weight was lowered, the thread then doing its allotted work, and the cards ascending into view, no matter how far distant the performer might then be standing. It seems likely that the invention of this primitive apparatus may have been due to the fact that some eighteenth century conjurer happened to observe the sand running out of an hour-glass and set about to find some means whereby this escape of sand could be utilized in his art. The hollow rod, the escaping sand, and the descending weight have long since been discarded; but the illusion of the *Rising Cards* survives and is now performed in an unending variety of ways. The pack may be held in the hand of the performer, without the use of any case, or it may be placed in a glass goblet, or it may be tied together with a ribbon and thus suspended from cords that swing to and from almost over the heads of the spectators; and however they may be isolated the chosen cards rise obediently when they are bidden. The original effect subsists, even though the devices differ.... The *Bookman: A Review of Books and Life*, Volume 40 Producing the Past May 28 2022 First published in 1999, this volume examines antiquarianism which had its roots in Renaissance thought and was a popular intellectual

and cultural pursuit throughout the eighteenth and nineteenth centuries. The antiquarian work of collecting, compiling and presenting material which exposed the past was seminal to the formation of social and national identities. These essays evaluate the cultural and political implications of antiquarianism in the period 1700-1850. The volume also considers how the antiquarians laid the foundations of later museum culture and the discipline of history. With a preface by Stephen Bann and introduced by Martin Myrone and Lucy Peltz, *Producing the Past* has contributions from Stephen Bending, Alexandrina Buchanan, Susan A. Crane, David Haycock, Maria Grazia Lolla, Heather MacLennan, Martin Myrone, Lucy Peltz, Annegret Pelz, Sam Smiles and Johann Reusch.

Head On/Repossessed Aug 31 2022 Julian Cope's highly acclaimed autobiography and its long-awaited sequel in one extraordinary volume.

Contents: * Julian Cope shot to fame with eighties band 'Teardrop Explodes' during the Punk era. Hailed as a visionary by those people who recognise his genius and a madman by those who find him perplexing, he has become a cult figure in the music world. * Head-On has previously only been available via 'Head Heritage' Julian's own company. *Repossessed* picks up in 1983 where *Head On* ends and continues up until 1989. Written in Cope's inimitable style it is set to provoke the same kind of media excitement. * When Julian Cope published 'Head

Made my heart burst. -- The Observer ...an enthralling saga of bitchiness, betrayal and unrepentent debauchery. -- The Sunday Times (Books of the Year) As a glimpse of the essentially pathetic but amusing whims and eccentricities that lie behind the screwed down hairdos of rock musicians, it's equally essential reading. And as a genital -warts-and -all diary of madmen, it is simply supreme entertainment. -- N.M.E Cope never portrays himself as anything less than a self-serving, childish, whinging half-assed failure. He's wrong, of course, but it makes for insanely funny reading. -- Select

Georgii Buchanani Poëmata Quae Extant Oct 21 2021

The Antiquarian Jan 24 2022 In this gripping historical thriller, the search for a mysterious and powerful object hidden in the heart of Barcelona leads to ambition, desire, love—and murder An intriguing letter from his adoptive father, Artur, turns novelist Enrique Alonso's world upside down. Artur, a well-known antiquarian in Barcelona, reveals that he has discovered an ancient manuscript, but he feels uneasy, as though he's in over his head. But before Artur can piece together the final part of the puzzle, he is attacked and murdered. Enrique rushes to Barcelona to investigate his father's death and retrieve the book. His ex-wife, Bety, a philologist, comes to his aid and the two set about translating and deciphering the encrypted text. Written in Latin and Old Catalan, the manuscript holds the key to the location of a priceless object dating back to the Middle Ages, and a secret closely guarded by the Jewish community living in the city's Gothic Quarter. When Enrique and Bety realize they

are not the only ones following the trail, it becomes a race against time to find the mythical object that has the power to transform lives.

ILLIAD & ODYSSEY

(Including the Mythology of Ancient Greece) Nov 21 2021

The Iliad and the Odyssey are the foundational works of ancient Greek literature. The Iliad is set during the Trojan War, the ten-year siege of the city of Troy by a coalition of Greek kingdoms. It focuses on a quarrel between King Agamemnon and the warrior Achilles lasting a few weeks during the last year of the war. The Odyssey focuses on the ten-year journey home of Odysseus, king of Ithaca, after the fall of Troy. From antiquity until the present day, the influence of Homeric epic on Western civilization has been great, inspiring many of its most famous works of literature, music, art and film. The Homeric epics were the greatest influence on ancient Greek culture and education; to Plato, Homer was simply the one who "has taught Greece"

Reading Children Apr 14 2021 What does it mean for a child to be a "reader" and how did American culture come to place such a high value on this

identity? *Reading Children* offers a history of the relationship between children and books in Anglo-American modernity, exploring long-lived but now forgotten early children's literature, discredited yet highly influential pedagogical practices, the property lessons inherent in children's book ownership, and the emergence of childhood itself as a literary property. The nursery and schoolroom version of the social contract, Crain argues, underwrote children's entry not only into reading and writing but also into a world of commodity and property relations. Increasingly positioned as an indispensable form of cultural capital by the end of the eighteenth century, literacy became both the means and the symbol of children's newly recognized self-possession and autonomy. At the same time, as children's legal and economic status was changing, "childhood" emerged as an object of nostalgia for adults. Literature for children enacted the terms of children's self-possession, often with explicit references to property, contracts, or inheritances, and yet also framed adult longing for an imagined past called "childhood." Dozens of colorful illustrations chart the ways in which early literature for children was transformed into spectacle through new image technologies and a burgeoning marketplace that capitalized on nostalgic fantasies of childhood conflated with bowdlerized fantasies of history. *Reading Children* offers new terms for thinking about the imbricated

and mutually constitutive histories of literacy, property, and childhood in the eighteenth and nineteenth centuries that ground current anxieties and long-held beliefs about childhood and reading.

A Gentle Madness Jan 12 2021 A Gentle Madness continues to astound and delight readers about the passion and expense a collector is willing to make in pursuit of the book. The book captures that last moment in time when collectors pursued their passions in dusty bookshops and street stalls, high stakes auctions, and the subterfuge worthy of a true bibliomaniac. An adventure among the afflicted, A Gentle Madness is vividly anecdotal and thoroughly researched. Nicholas Basbanes brings an investigative reporter's heart to illuminate collectors past and present in their pursuit of bibliomania. A New York Times Notable Book of the Year. *Give a Girl a Knife* Dec 31 2019 A beautifully written food memoir chronicling one woman's journey from her rural Midwestern hometown to the intoxicating world of New York City fine dining—and back again—in search of her culinary roots Before Amy Thielen frantically plated rings of truffled potatoes in some of New York City's finest kitchens—for chefs David Bouley, Daniel Boulud, and Jean-Georges Vongerichten—she grew up in a northern Minnesota town home to the nation's largest French fry factory, the headwaters of the fast food nation, with a mother whose generous cooking dripped with tenderness, drama, and an overabundance of butter. Inspired by her grandmother's tales of cooking in the family farmhouse, Thielen moves north with her artist husband

to a rustic, off-the-grid cabin deep in the woods. There, standing at the stove three times a day, she finds the seed of a growing food obsession that leads her to the sensory madhouse of New York's top haute cuisine brigades. But, like a magnet, the foods of her youth draw her back home, where she comes face to face with her past and a curious truth: that beneath every foie gras sauce lies a rural foundation of potatoes and onions. Amy Thielen's coming-of-age story pulses with energy, a cook's eye for intimate detail, and a dose of dry Midwestern humor. Give a Girl a Knife offers a fresh, vivid view into New York's high-end restaurants before returning Thielen to her roots, where she realizes that the marrow running through her bones is not demi-glace but gravy—thick with nostalgia and hard to resist.

[Book Row](#) Nov 29 2019 The city has eight million stories, and this one unfolds just south

of 14th Street in Manhattan, mostly on the seven blocks of Fourth Avenue bracketed by Union Square and Astor Place. There, for nearly eight decades, from the 1890s to the 1960s, thrived a bibliophiles' paradise. They called it the New York Booksellers' Row, or, more commonly, Book Row. It's an American story, the story that this richly anecdotal historical memoir amiably tells: as American as the rags-to-riches tale of the Strand, which began its life as book stall on Eighth Street and today houses 2.5 million volumes in twelve miles of space. It's a story cast with colorful characters: like the horse-betting, poker-playing go-getter and book dealer George D. Smith; the irascible Russian-born book hunter Peter Stammer, the visionary Theodore C. Schulte; Lou Cohen, founder of the still-surviving Argosy Book Store; gentleman bookseller George Rubinowitz and his legendary shrewd wife Jenny. Rising rents, street crime, urban redevelopment, television-the reasons are many for the demise of Book Row, but in this volume, based on interviews with dozens upon dozens of the book people who bought, sold, and collected there, it lives again.
