Let Me Off at the Top! Oct 07 2020 A shockingly candid and raw autobiography from legendary anchorman, jazz flutist, and host of The Ron Burgundy Podcast, Ron Burgundy. From his humble beginnings in a desolate Iowa coal mining town, his years at Our Lady Queen of Chewbacca High School to his odds-defying climb to the dizzying heights of becoming America's most trusted and beloved television News Anchor, Ron Burgundy pulls no punches in *Let Me Off at the Top!* In his very own words Burgundy reveals his most private thoughts, his triumphs and his disappointments. His life reads like an adventure story complete with knock-down fights, beautiful women and double-fisted excitement on every page. He has hunted jackalopes with Bobby Kennedy and Peter Lawford, had more than his share of his amorous exploits, and formed the greatest on-air team in the history of televised news. Along the way, he hobnobbed with people you wish you knew and some you honestly wish you didn't—celebrities, presidents, presidents' wives, celebrities' wives, dogs, and, of course Veronica Corningstone, the love of his life. Walter Cronkite, Barbra Streisand, Katie Couric, the list goes on. Who didn't Mr. Burgundy, or "Ron" as he is known to his friends, rub elbows with in the course of his colorful and often criminal life? This may well be the most thrilling book ever written, by a man of great physical, moral and spiritual strength and not surprisingly a great literary talent as well. This book deserves a real shot at a Pulitzer Prize. In fact if it doesn't win one then we will finally have proof that the Pulitzer is rigged. Ron Burgundy has taken the time to write a book. We owe it to him, as honest Americans, to read it.

Millionaire by Thirty Mar 12 2021 Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money."

Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in *Millionaire by Thirty*, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

Tiberius Found Mar 31 2020 What would you do if you discovered your whole life to be a lie? Daniel Henstock thinks he's an ordinary schoolboy but on his sixteenth birthday his world is turned upside down. He is the world's first one-hundred percent genetically-engineered human - assigned the codename Tiberius - and Gregory Dryden, the man responsible, wants him back so that he can continue his deadly experiments. Running for his life, Daniel flees to New York and is forced to go 'off-grid'. In this near-future America, where the security-obsessed authorities require citizens to carry DNA cards, Daniel meets the feisty and beautiful Eleanor. But by falling for her, Daniel also puts her in terrible danger. Daniel pursues the facts about his origins but is hunted by an agent sent by Dryden to bring him to heel. Can Daniel find out the truth whilst trying to evade those who think they own him? As his enemies close in Daniel must draw on resources he never knew he had to win his freedom - but in doing so he may be walking into a deadly trap ... TIBERIUS FOUND is the first instalment in a thrilling series - The Emperor Initiative - that introduces an engaging new hero that will appeal to fans of Alex Rider and Jason Bourne.

Introduction to Radar Using Python and MATLAB Apr 12 2021 This comprehensive resource provides readers with the tools necessary to perform analysis of various waveforms for use in radar systems. It provides information about how to produce synthetic aperture (SAR) images by giving a tomographic formulation and implementation for SAR imaging. Tracking filter fundamentals, and each parameter associated with the filter and how each affects tracking performance are also presented. Various radar cross section measurement techniques are covered, along with waveform selection analysis through the study of the ambiguity function for each particular waveform from simple linear frequency modulation (LFM) waveforms to more complicated coded waveforms. The text includes the Python tool suite, which allows the reader to analyze and predict radar performance for various scenarios and applications. Also provided are MATLAB® scripts corresponding to the Python tools. The software includes a user-friendly graphical user interface (GUI) that provides visualizations of the concepts being covered. Users have full access to both the Python and MATLAB source code to modify for their application. With examples using the tool suite are given at the end of each chapter, this text gives readers a clear understanding of how important target scattering is in areas of target detection, target tracking, pulse integration, and target discrimination.
