Puns Lost in Translation. Contrasting English Puns and Their German Translations in the Television Show "How I Met Your Mother" Sep 07 2020 Translating a text into another language is a process mostly known in the area of literature. At the same time (even though often disregarded in this connection), translation is a central part of filmmaking. Since the emergence of sound films in the 1930s, screen translation (that is, subtitling, dubbing and voice-over) has become a tradition in Europe. In Germany, dubbing has been the universalized means of defying language barriers in the field of movie and television ever since. However, it is commonly believed that translated movies and television series lack certain features as compared to their original. Disapproval of dubbed movies and television shows has become quite frequent in Germany, not necessarily among linguists and/or multilingual people exclusively. In the case of dubbed sitcoms which originate in the United States, it is safe to say that the German audience repeatedly stumbles upon scenes that are entirely incomprehensible and, even more perplexing, end in the laugh track which is typically inserted in US situation comedies. Clearly, the source text contains a joke that has been lost in translation. But what are the reasons for such ineffective adaptations? Is it the fact that the original jokes include a culturespecific term that is only understandable in the source language or is simply the translators' carelessness to blame? Research in media, humor and translation studies reveals that wordplays² are a universal phenomenon which is generally considered untranslatable. In this paper, I argue that the German dubbed versions of US American sitcoms lose a great deal of their humor since language jokes, particularly puns, are rarely successfully translated. The dubbed versions include a remarkably large number of literal translations and even direct copies of English words which not only are no longer funny, but are also incomprehensible in the target language. Unfortunately, it seems to be the case that no research on English puns and their German

dubbed translations has been conducted to date. Therefore, I will examine how English puns are adapted in the corresponding German translations. For this study, I will analyze the popular US television series *How I Met Your Mother*, which ran in the United States from 2005 to 2014 and is well-known for its jokes and frequent use of puns.

Romanian. Great jokes like: "Mami, pot sa port sutien acuma ca am 16 ani?" "Nu, David." or this classic "Un barbat de 80 ani merse la doctor." "Ma casatoresc saptamana viitoare." "Foarte bine", zise doctorul. "Cati ani are prietena dvs?" "18", raspunse omul. "Dumnezeule! Trebuie sa va previn ca orice fel de activitate in pat poate fi fatala." "Pai", zise barbatul, "Daca moare, moare." I first learnt German by telling jokes to people in my awful German. Africans in English Caricature 1769-1819 Jun 04 2020 Between 1769 and 1819 London experienced an unprecedented growth in the proliferation of texts and images in the popular sphere, engaging learned citizens in discussion and commentary on the most pressing social and political issues of the day. From the repeal of the Stamp Act to the French revolution, the local Westminster election or the abolition of the slave trade, these prints, political pamphlets, plays, novels and periodicals collaborated (sometimes intentionally) in critique, praise and assessment of the country's changing socio-economic climate. African people were a critical aspect of this world of images, and their presence conveyed much about the implications of travel, colonialism and slavery on the collective psyche. Whether encountered on the streets of the city, in opulent stately homes, or in tracts describing the horrors of the slave trade, the British paid attention to Africans (consciously or not), and developed a means of expressing the impact of these encounters through images. Scholarship has begun to interrogate the presence of Africans in British art of this period, but very little has been written about their place in visual and literary humour created in a metropolitan context. This book fills this scholarly lacuna, exploring how and why satirical artists both mocked and utilized these characters as subversive comic weaponry.

[A National Joke](#) Dec 11 2020 Comedy is crucial to how the English see themselves. This book considers that proposition through a series of case studies of popular English comedies and comedians in the twentieth century, ranging from the Carry On films to the work of Mike Leigh and contemporary sitcoms such as The Royle Family, and from George Formby to Alan

Bennett and Roy 'Chubby' Brown. Relating comic traditions to questions of class, gender, sexuality and geography, *A National Joke* looks at how comedy is a cultural thermometer, taking the temperature of its times. It asks why vulgarity has always delighted English audiences, why camp is such a strong thread in English humour, why class influences what we laugh at and why comedy has been so neglected in most theoretical writing about cultural identity. Part history and part polemic, it argues that the English urgently need to reflect on who they are, who they have been and who they might become, and insists that comedy offers a particularly illuminating location for undertaking those reflections.

Conceptual Blending in Jokes Mar 02 2020

Seminar paper from the year 2009 in the subject English Language and Literature Studies - Linguistics, grade: 1,3, University of Hamburg (Institut für Anglistik und Amerikanistik), course: Highlights in Cognitive Linguistics, language: English, abstract: The emerging ability for blending different mental spaces, so argue Fauconnier and Turner (2002: V), allowed humans to gain the upper hand over competing species from the Upper Paleolithic onwards, since this ability gave them the imagination required to invent new concepts, tools and means of communication (among them language). On the basis of this discovery and the initially developed Mental Space theory, Fauconnier and Turner advanced a striking theory called the Conceptual Blending theory. [...] Therefore, in this term paper I focus entirely on jokes, which I attempt to interpret by means of the Blending theory. To investigate cognitive

processes involved in joke comprehension, I have interviewed four English native speakers with the intention of finding whether all of them are able to explain why the joke is funny and which incompatible elements are responsible for its humorous effect. Taking into account the participants' answers I have tried to define the input spaces (by naming their constituents) and the blended space. Additionally, the participants' answers were evaluated with regard to the role of background knowledge, which is necessary in order to comprehend the joke. Finally, I examined whether the Conceptual Blending theory might be applicable for the analysis of joke processing and comprehension in general and what difficulties can arise during the creation of the input spaces and the blend. Thus, in the following sections I will first introduce important information on conceptual blending and then analyze selected jokes according to the Conceptual Blending theory, taking into consideration the interviewees' explanations of the jokes. Central to Conceptual Blending theory is the notion of the conceptual blending network (or conceptual integration network), an array of mental spaces in which the processes of blending unfold (Fauconnier and Turner, 1998b). A basic conceptual integration network contains four mental spaces: two input spaces, a generic space and a blended space (see Figure 1). Input spaces are on-line conceptual representations constructed under the influence of the incoming information but tapping stored cognitive models. [...]
