Architecture and Embodiment Jul 08 2020 In recent years we have seen a number of dramatic discoveries within the biological and related sciences. Traditional arguments such as "nature versus nurture" are rapidly disappearing because of the realization that just as we are affecting our environments, so too do these altered environments restructure our cognitive abilities and outlooks. If the biological and technological breakthroughs are promising benefits such as extended life expectancies, these same discoveries also have the potential to improve in significant ways the quality of our built environments. This poses a compelling challenge to conventional architectural theory... This is the first book to consider these new scientific and humanistic models in architectural terms. Constructed as a series of five essays around the themes of beauty, culture, emotion, the experience of architecture, and artistic play, this book draws upon a broad range of discussions taking place in philosophy, psychology, biology, neuroscience, and anthropology, and in doing so questions what implications these discussions hold for architectural design. Drawing upon a wealth of research, Mallgrave argues that we should turn our focus away from the objectification of architecture (treating design as the creation of objects) and redirect it back to those for whom we design: the people inhabiting our built environments.

36 Questions That Changed My Mind About You Nov 23 2021 Inspired by the real psychology study popularized by the New York Times and its "Modern Love" column, this contemporary YA is perfect for fans of Eleanor and Park. Two random strangers. Two secrets. Thirty-six questions to make them fall in love. Hildy and Paul each have their own reasons for joining the university psychology study that asks the simple question: Can love be engineered? The study consists of 36 questions, ranging from "What is your most terrible memory?" to "When did you last sing to yourself?" By the time Hildy and Paul have made it to the end of the questionnaire, they've laughed and cried and lied and thrown things and run away and come back and driven each other almost crazy. They've also each discovered the painful secret the other was trying so hard to hide. But have they fallen in love? Told in the language of modern romance -- texting, Q&A, IM -- and punctuated by Paul's sketches, this clever high-concept YA is full of humor and heart. As soon as you've finished reading, you'll be searching for your own stranger to ask the 36 questions. Maybe you'll even fall in love. Rights have sold in 19 territories!

[James Bond Vol. 1: Vargr](#) Dec 13 2020 After a mission of vengeance in Helsinki, James Bond returns to London and assumes the workload of a fallen 00 Section agent. His new mission takes him to Berlin, presumably to break up an agile drug-trafficking operation. But Bond has no idea of the forces gathered in secret against him, the full scope of an operation that's much scarier and more lethal than he could possibly imagine. Berlin is about to catch fire... and James Bond is trapped inside. Dynamite Entertainment proudly presents VARGR, the debut storyline in the all-new James Bond comic book series, as crafted by masterful writer Warren Ellis (Transmetropolitan, The Authority) and artist Jason Masters (Batman Incorporated, Guardians of the Galaxy).

[Little Vampire](#) Jan 02 2020 Living in a house filled with grown-up ghouls and monsters, Little Vampire is so lonely that he's even willing to go to school if that's what it takes to find friends. Unfortunately, school seems to be filled with children who are still alive. . . . Little Vampire finds friendship with a boy named Michael, and they embark on adventures in the three stories in this collection. Included in this

book are Little Vampire Goes to School (a New York Times Bestseller), Little Vampire Does Kung Fu, and Little Vampire and the Society of Canine Defenders (now published in the United States for the first time). Insightful and inventive, Joann Sfar brings Little Vampire and Michael's fantastical world to young readers in stories that both feed the imagination and resonate with emotional truth.

Giacomo Barri «francese» e il suo «Viaggio pittoresco d'Italia». Gli anni a Venezia di un peintre-graveur scrittore d'arte nel Seicento Sep 29 2019 Jacques de Pierre de Bar alias Giacomo Barri (ca. 1636-ca. 1690), giunto a Venezia da Lione all'età di quattro anni, fu un esponente significativo della scena artistica lagunare del Seicento maturo. Pittore copista, incisore d'après e scrittore d'arte, pubblicò nel 1671 il Viaggio pittoresco d'Italia: la prima guida "tascabile" alla pittura dei grandi maestri italiani, che fu presto tradotta a Londra nel 1679, a cura dell'incisore William Lodge di Leeds. Il lavoro è articolato in due sezioni. La prima è strutturata come una monografia d'artista con la ricostruzione delle vicende biografiche di Barri, della rete di committenze e del catalogo delle opere. La seconda parte propone un'edizione critica e commentata dell'ormai rarissimo Viaggio pittoresco e della sua traduzione inglese *The Painters Voyage*. L'innovativa creazione editoriale di Barri, già segnalata nella poderosa *Kunstliteratur* di Julius von Schlosser come il primo vero e proprio episodio della "letteratura dei Ciceroni", ma da allora rimasta inesplorata, divenne un utile strumento di viaggio per gli amatori e curiosi d'arte, così come, in traduzione, la prima guida tascabile per gli aristocratici europei invaghiti dell'Italia e della sua pittura, agli esordi del Grand Tour.

Epic Continent Nov 11 2020 Selected as one of NPR's Best Books of 2019 Selected by National Geographic as one of 12 "great books for travelers" "The prose is colourful and vigorous ... Jubber's journeying has indeed been epic, in scale and in ambition. In this thoughtful travelogue he has woven together colourful ancient and modern threads into a European tapestry that combines the sombre and the sparkling' Spectator 'A genuine epic' Wanderlust Award-winning travel writer Nicholas Jubber journeys across Europe exploring Europe's epic poems, from the Odyssey to Beowulf, the Song of Roland to the Nibelungenlied, and their impact on European identity in these turbulent times. These are the stories that made Europe. Journeying from Turkey to Iceland, award-winning travel writer Nicholas Jubber takes us on a fascinating adventure through our continent's most enduring epic poems to learn how they were shaped by their times, and how they have since shaped us. The great European epics were all inspired by moments of seismic change: The Odyssey tells of the aftermath of the Trojan War, the primal conflict from which much of European civilisation was spawned. The Song of the Nibelungen tracks the collapse of a Germanic kingdom on the edge of the Roman Empire. Both the French Song of Roland and the Serbian Kosovo Cycle emerged from devastating conflicts between Christian and Muslim powers. Beowulf, the only surviving Old English epic, and the great Icelandic Saga of Burnt Njal, respond to times of great religious struggle - the shift from paganism to Christianity. These stories have stirred passions ever since they were composed, motivating armies and revolutionaries, and they continue to do so today. Reaching back into the ancient and medieval eras in which these defining works were produced, and investigating their continuing influence today, Epic Continent explores how matters of honour, fundamentalism, fate, nationhood, sex, class and politics have preoccupied the people of Europe across the millennia. In these tales soaked in blood and fire, Nicholas Jubber discovers how the world of gods and emperors, dragons and water-maidens, knights and princesses made our own: their deep impact on European identity, and their resonance in our turbulent times.

Children's Literature in China: From Lu Xun to Mao Zedong Jun 30 2022 This book introduces the major works and debates in Chinese children's literature within the framework of China's revolution and modernization. It demonstrates that the guiding rationale in children's literature was the political importance of children as the nation's future.

Winsor McCay Jul 20 2021 This volume is the only existing biography of one of America's greatest and most influential cartoonists. Winsor McCay (1867-1934) is universally acknowledged as the first master of both the comic strip and the animated cartoon. Although invented by others, both genres were developed into enduring popular art of the highest imagination through McCay's innovative genius. Included are new materials found since the previous publication of the book such as new comic strips of Little Nemo in Slumberland, and new sketches of Gertie the Dinosaur.

A Handbook for Student Performance Assessment in an Era of Restructuring Oct 30 2019 This handbook is designed to help school staff members and others broaden their view of assessment and put assessment into the broader context of school restructuring while keeping the focus on students. The handbook is arranged in sections, each dealing with a separate topic. Each section contains a number of papers by different authors that represent the best thinking on the topic. Each section begins with an overview that discusses the major perspectives, ideas, issues, and concerns that relate to the section topic and describes how each paper fits into this fabric. The sections are: (1) "Setting the Stage"; (2) "Placing Student Performance Assessment within the Context of School Restructuring"; (3) "Developing Student Learning Goals for the 21st Century"; (4) "Aligning Assessment with Curriculum and Instruction"; (5) "Designing Performance Tasks"; (6) "Establishing Performance Criteria"; (7) "Using Performance Assessment Information for Improvement"; and (8) "Implementing Performance Assessment." In all, there are 98 papers in the handbook and 3 "resources": a glossary, a list of assessment information sources, and a list of contributors. Most of the articles contain references and illustrations. (SLD)

Memoirs of a Book Thief Jun 18 2021 Paris in the 1950s: the reign of Sartre and existentialism. Daniel Brodin--bibliophile, book thief, self-proclaimed poet--enters the heated atmosphere of the Cafe Serbier, home of the Parisian literati. A poetry night is taking place and, when one luminary suggests giving the floor to an unknown, Daniel impulsively puts himself forward. Under pressure, he recites not one of his own surrealist poems but an obscure piece of Italian verse he's certain no one will know. It's plagiarism--but it's a triumph. At last, success. Daniel's recital marks his entrance into the Parisian avant-garde: a band of cultured rogues and pseudo-revolutionaries for whom life is a playground for art, and planning a robbery has as much value as writing a book. In this milieu, the wine is good and the girls are beautiful. But can success last if it is founded on plagiarism and theft?

DCeased: Unkillables May 18 2021 When heroes fall, villains rise! The next chapter of the hit DCeased saga is the villains' story of survival during the zombie apocalypse! Refiguring American Film Genres Aug 21 2021 This collection of essays by leading American film scholars charts a whole new territory in genre film criticism. Rather than assuming that genres are self-evident categories, the contributors offer innovative ways to think about types of films, and patterns within films, in a historical context. Challenging familiar attitudes, the essays offer new conceptual frameworks and a fresh look at how popular culture functions in American society. The range of essays is exceptional, from David J. Russell's insights into the horror genre to Carol J. Clover's provocative take on "trial films" to Leo Braudy's argument for the subject of nature as a genre. Also included are essays on melodrama, race, film noir, and the industrial context of genre production. The contributors confront the poststructuralist critique of genre head-on; together they are certain to shape future debates concerning the viability and vitality of genre in studying American cinema.

Why Architects Still Draw Feb 24 2022 An architect's defense of drawing as a way of thinking, even in an age of electronic media. Why would an architect reach for a pencil when drawing software and AutoCAD are a click away? Use a ruler when 3D-scanners and GPS devices are close at hand? In *Why Architects Still Draw*, Paolo Belardi offers an elegant and ardent defense of drawing by hand as a way of thinking. Belardi is no Luddite; he doesn't urge architects to give up digital devices for watercolors and a measuring tape. Rather, he makes a case for drawing as the interface between the idea and the work itself. A drawing, Belardi argues, holds within it the entire final design. It is the paradox of the acorn: a project emerges from a drawing—even from a sketch, rough and inchoate—just as an oak tree emerges from an acorn. Citing examples not just from architecture but also from literature, chemistry, music, archaeology, and art, Belardi shows how drawing is not a passive recording but a moment of invention pregnant with creative possibilities. Moving from the sketch to the survey, Belardi explores the meaning of measurement in a digital era. A survey of a site should go beyond width, height, and depth; it must include two more dimensions: history and culture. Belardi shows the sterility of techniques that value metric exactitude over cultural appropriateness, arguing for an “informed drawing” that takes into consideration more than meters or feet, stone or steel. Even in the age of electronic media, Belardi writes, drawing can maintain its role as a cornerstone of architecture.
