A quirky, cautionary tale from beloved New York Times bestselling picture book creator Oliver Jeffers! There was once a man who believed he owned everything and set out to survey what was his. "You are mine," Fausto said to the flower, the sheep, and the mountain, and they all bowed before him. But they were not enough for Fausto, so he conquered a boat and set out to sea . . . Combining bold art and powerful prose, and working in traditional lithographic printmaking techniques for the first time,

world-renowned talent Oliver Jeffers has created a poignant modern-day fable to touch the hearts of adults and children alike. Praise for *The Fate of Fausto*: "Jeffers paints Fausto and the objects of his desire with the nonchalant finesse he is known for and in the richly saturated colors he generally favors... Jeffers delivers swift justice in a few concluding words that make for an ending that satisfies for being both fair-minded and irrevocable."--New York Times Book Review "Boldly conceived and gracefully executed."--Publishers Weekly "A parable sure to spark lively discussions." --Booklist "A cautionary fable on the banality of belligerence." --Kirkus Reviews

The Fate of Food Dec 13 2020 WINNER OF THE 2019 NAUTILUS BOOK AWARD In the fascinating story of the sustainable food revolution, an environmental journalist and professor asks the question: Is the future of food looking bleak—or better than ever? "In *The Fate of Food*, Amanda Little takes us on a tour of the future. The journey is scary, exciting, and, ultimately, encouraging."—Elizabeth Kolbert, Pulitzer Prize-winning author of *The Sixth Extinction* Climate models show that global crop production will decline every decade for the rest of this century due to drought, heat, and flooding. Water supplies are in jeopardy. Meanwhile, the world's population is expected to grow another 30 percent by midcentury. So how, really, will we feed nine billion people sustainably in the coming decades? Amanda Little, a professor at Vanderbilt University and an award-winning journalist, spent three years traveling through a dozen countries and as many U.S. states in search of answers to this question. Her journey took her from an apple orchard in Wisconsin to a remote control organic farm in Shanghai, from Norwegian fish farms to famine-stricken regions of Ethiopia. The race to reinvent the global food system is on, and the challenge is twofold: We must solve the existing problems of industrial agriculture while also preparing for the pressures ahead. Through her interviews and adventures with farmers, scientists, activists, and engineers, Little tells the fascinating story of human innovation and explores new and old approaches to food production while charting the growth of a movement that could redefine sustainable food on a grand scale. She meets small permaculture farmers and "Big Food" executives, botanists studying ancient superfoods and Kenyan farmers growing the country's first GMO corn. She travels to places that might seem irrelevant to the future of food yet surprisingly play a critical role—a California sewage plant, a U.S. Army research lab, even the inside of a monsoon cloud above Mumbai. Little asks tough questions: Can GMOs actually be good for the environment—and for us? Are we facing the end of animal meat? What will it take to eliminate harmful chemicals from farming? How can a clean, climate-resilient food supply become accessible to all? Throughout her journey, Little finds and shares a deeper understanding of the threats of climate change and encounters a sense of awe and optimism about the lessons of our past and the scope of human ingenuity.

A Dangerous Place Sep 02 2022 Writing with a signature command of his subject and with compelling resonance, Marc Reisner leads us through California’s improbable rise from a largely desert land to the most populated state in the nation, fueled by an economic engine more productive than all of Africa. Reisner believes that the success of this last great desert civilization hinges on California’s denial of its own inescapable fate: Both the Los Angeles and San Francisco Bay areas sit astride two of the most violently seismic zones on the planet. The earthquakes that have already rocked California were, according to Reisner, a mere prologue to a future cataclysm that will result in immense destruction. Concluding with a hypothetical but chillingly realistic description of what such a disaster would look like, *A Dangerous Place* mixes science, history, and cultural commentary in a haunting work of profound importance.

The Fate of Place Nov 04 2022 Not merely a presentation of the ideas of other thinkers, *The Fate of Place* is acutely sensitive to silences, absences, and missed opportunities in the complex history of philosophical approaches to space and place. A central theme is the increasing neglect of place in favor of space from the seventh century A.D. onward, amounting to the virtual exclusion of place from philosophical thought by the end of the eighteenth century.

Three Girls from Bronzeville Jul 08 2020 A New York Times and Washington Post Notable Book A Best Book of 2021 by BuzzFeed and Real Simple A “beautiful, tragic, and inspiring” (Publishers Weekly, starred review) memoir about three Black girls from the storied Bronzeville section of Chicago that offers a penetrating exploration of race, opportunity, friendship, sisterhood, and the powerful forces at work that allow some to flourish...and others to falter. They were three Black girls. Dawn, tall and studious; her sister, Kim, younger by three years and headstrong as they come; and her best friend, Debra, already prom-queen pretty by third grade. They bonded—fervently and intensely in that unique way of little girls—as they roamed the concrete landscape of Bronzeville, a historic neighborhood on Chicago’s South Side, the destination of hundreds of thousands of Black folks who fled the ravages of the Jim Crow South. These third-generation daughters of the Great Migration come of age in the 1970s, in the warm glow of the recent civil rights movement. It has offered them a promise, albeit nascent and fragile, that they will have more opportunities, rights, and freedoms than any generation of Black Americans in history. Their working-class, striving parents are eager for them to realize this hard-fought potential. But the girls have much more immediate concerns: hiding under the dining room table and eavesdropping on grown folks’ business; collecting secret treasures; and daydreaming about their futures—Dawn and Debra, doctors, Kim a teacher. For a brief, wondrous moment the girls are all giggles and dreams and promises of “friends forever.” And then fate intervenes, first slowly and then dramatically, sending them careening in wildly different directions. There’s heartbreak, loss, displacement, and even murder. Dawn struggles to make sense of the shocking turns that consume her sister and her best friend, all the while asking herself a simple but profound question: Why? In the vein of *The Other Wes Moore* and *The Short and Tragic Life of Robert Peace*, *Three Girls from Bronzeville* is a piercing memoir that chronicles Dawn’s attempt to find answers. It’s at once a celebration of sisterhood and friendship, a testimony to the unique struggles of

Black women, and a tour-de-force about the complex interplay of race, class, and opportunity, and how those forces shape our lives and our capacity for resilience and redemption.

We're all in danger and I'm trying to figure out how to make it through each day. The key to my survival is a man I can't figure out. ***The Meaning of Human Existence* May 30 2022** National Book Award Finalist. How did humanity originate and why does a species like ours exist on this planet? Do we have a special place, even a destiny in the universe? Where are we going, and perhaps, the most difficult question of all, "Why?" In *The Meaning of Human Existence*, his most philosophical work to date, Pulitzer Prize-winning biologist Edward O. Wilson grapples with these and other existential questions, examining what makes human beings supremely different from all other species. Searching for meaning in what Nietzsche once called "the rainbow colors" around the outer edges of knowledge and imagination, Wilson takes his readers on a journey, in the process bridging science and philosophy to create a twenty-first-century treatise on human existence—from our earliest inception to a provocative look at what the future of mankind portends. Continuing his groundbreaking examination of our "Anthropocene Epoch," which he began with *The Social Conquest of Earth*, described by the *New York Times* as "a sweeping account of the human rise to domination of the biosphere," here Wilson posits that we, as a species, now know enough about the universe and ourselves that we can begin to approach questions about our place in the cosmos and the meaning of intelligent life in a systematic, indeed, in a testable way. Once criticized for a purely mechanistic view of human life and an overreliance on genetic predetermination, Wilson presents in *The Meaning of Human Existence* his most expansive and advanced theories on the sovereignty of human life, recognizing that, even though the human and the spider evolved similarly, the poet's sonnet is wholly different from the spider's web. Whether attempting to explicate "The Riddle of the Human Species," "Free Will," or "Religion"; warning of "The Collapse of Biodiversity"; or even creating a plausible "Portrait of E.T.," Wilson does indeed believe that humanity holds a special position in the known universe. The human epoch that began in biological evolution and passed into pre-, then recorded, history is now more than ever before in our hands. Yet alarmed that we are about to abandon natural selection by redesigning biology and human nature as we wish them, Wilson soberly concludes that advances in science and technology bring us our greatest moral dilemma since God stayed the hand of Abraham.

A Merciless Place Nov 23 2021 Since Robert Hughes' *The Fatal Shore*, the fate of British convicts has burned brightly in the popular imagination. Incredibly, their larger story is even more dramatic--the saga of forgotten men and women scattered to the farthest corners of the British empire, driven by the winds of the American Revolution and the currents of the African slave trade. In *A Merciless Place*, Emma Christopher brilliantly captures this previously unknown story of poverty, punishment, and transportation. The story begins with the American War of Independence, until which many British convicts were shipped across the Atlantic. The Revolution interrupted this flow and inspired two entrepreneurs to organize the criminals into military units to fight for the crown. The felon soldiers went to West Africa's slave-trading posts just as the war ended; these forts became the new destination for England's rapidly multiplying convicts. The move was a disaster. Christopher writes that "before the scheme was abandoned, it would have run the gamut of piracy, treachery, mutiny, starvation, poisonings, allegations of white women forced to prostitute themselves to African men, and not least several cases of murder." To end the scandal, the British government chose a new destination, as far away as possible: Australia. Christopher here captures the gritty lives of Britain's convicts: victims of London's underworld, rife with brutal crime and sometimes even more brutal punishments. Equally fascinating are the portraits of Fante people of West Africa, forced to undergo dramatic changes in their role as intermediaries with Europeans in the slave trade. Here, too, are the aboriginal Australians, coping with the transformation of their native land. They all inhabit *A Merciless Place*: a tour de force and historical narrative at its finest.

The Fate of Wonder Mar 28 2022 Kevin M. Cahill reclaims one of Ludwig Wittgenstein's most passionately pursued endeavors: to reawaken a sense of wonder around human life and language and its mysterious place in the world. Following the philosopher's spiritual and cultural criticism and tying it more tightly to the overall evolution of his thought, Cahill frames an original interpretation of Wittgenstein's engagement with Western metaphysics and modernity, better contextualizing the force of his work. Cahill synthesizes several approaches to Wittgenstein's life and thought. He stresses the nontheoretical aspirations of the philosopher's early and later writings, combining key elements from the so-called resolute readings of the *Tractatus* with the "therapeutic" readings of *Philosophical Investigations*. Cahill shows how continuity in Wittgenstein's cultural and spiritual concerns informed if not guided his work between these texts, and in his reading of the *Tractatus*, Cahill identifies surprising affinities with Martin Heidegger's *Being and Time*—a text rarely associated with Wittgenstein's early formulations. In his effort to recapture wonder, Wittgenstein both avoided and undermined traditional philosophy's reliance on theory. As Cahill relates the steps of this bold endeavor, he forms his own innovative, analytical methods, joining historicist and contextualist approaches to text-based, immanent readings. The result is an original, sustained examination of Wittgenstein's thought.

City Lives and City Forms Jun 26 2019 Focusing on a series of pivotal issues confronting Canadian cities and city-dwellers today, this volume address key themes in urban studies: the interaction between social relations and urban landscape, the status of the city in the new world economy, and the sociocultural complexity of urban populations. The fifteen essays presented here reflect the current preoccupations and perspectives of critically oriented urban researchers in Canada. The essays in Part 1, 'People, Places, Cultures, ' examine the nature of urban space and the links between this space and social relations, illustrating the fundamental principle that urban spaces are 'built values' and 'built politics' - physical expressions of social process. Part 2, 'The Economy of Cities, ' explores recent fundamental shifts in the economic character of Canadian cities, whose effect on the social and physical landscapes has been as dramatic as the explosive onset of industrialism was in the last century. Part 3, 'Urban Social Movements, ' focuses on the practices of social movements, including those oriented to gender, race, and the environment. Consisting largely of applied case studies, rather than broad thematic essays, *City Lives and City Forms* presents an overall argument for focused critical research in the urban field and suggests possible directions for the future.

Anthem Nov 11 2020 In a future world, only one man dares to think, strive, and love as an individual in the midst of a paralyzing collective humanity.

Into the Wild Apr 04 2020 Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning."
—New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates,

and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

Friendship, love, and betrayal lay in wait for her as she is faced with the impossible decision to save the many or to save the only one who she has ever loved.

Representing Place Jan 26 2022 "You are here, a map declares, but of course you are not, any more than you truly occupy the vantage point into which a landscape painting puts you. How maps and paintings figure and reconfigure space--as well as our place in it--is the subject of Edward S. Casey's study, an exploration of how we portray the world and its many places. Casey's discussion ranges widely from Northern Song landscape painting to nineteenth-century American and British landscape painting and photography, from prehistoric petroglyphs and medieval portolan charts to seventeenth-century Dutch cartography and land survey maps of the American frontier. From these culturally and historically diverse forays a theory of representation emerges. Casey proposes that the representation of place in visual works be judged in terms not of resemblance, but of reconnecting with an earth and world that are not the mere content of mind or language--a reconnection that calls for the embodiment and implacement of the human subject." -- Book jacket.
