The Lost Venetian Church of Santa Maria Assunta dei Crociferi Nov 08 2020 Version: 1.1.2 DOI: 10.5281/zenodo.4284460 Original Repository (Zenodo): <https://doi.org/10.5281/zenodo.4094821> This book investigates the history and decoration of one of the most important churches of Venice in the 16th century: Santa Maria Assunta dei Crociferi. Painters and sculptors of the stature of Titian, Tintoretto, Veronese, Palma il Giovane, Vittoria and Campagna all contributed major works of art, many of which survive in the present-day church of the Gesuiti. But as a result of the suppression of the order of the Crociferi (Crosiers, or Crutched Friars) in 1656, and of the subsequent demolition of their church, the art-historical significance of this ensemble had become largely overlooked. Serious study of the church was further impeded by the loss of the church ' s archive. Nevertheless, readers are here presented with a surprisingly wide range of alternative archival and early printed sources that document the history of the church, and integrate it with the surviving works of art. We are taken on a journey of discovery of leading members of the order, of lay patrons who supported the church's renovation, and of the productive relationships that led to important artistic commissions. Originally submitted by the late Allison Sherman to the University of St Andrews in 2010, the present doctoral thesis was edited for publication by Carlo Corsato and provided with a full set of illustrations. Two further additional essays by Allison Sherman are also included: ' Titian ' s Martyrdom of St. Lawrence and its Original Location in the Lost Venetian Church of Santa Maria Assunta dei Crociferi ' . This was the opening chapter of the volume La Notte di san Lorenzo (2013), edited by Letizia Lonzi and the late Lionello Puppi. Presented here is the unpublished original English version, which summarises many of the discoveries included in the doctoral dissertation. ' Murder and Martyrdom: Titian ' s Gesuiti St. Lawrence as a Family Peace Offering ' . This appeared in Artibus et Historiae (2015), and offers the most significant investigation of the patronage of a masterpiece by Titian: The Martyrdom of St Lawrence (Church of the Gesuiti, Venice).

The Four Seasons of Venice - 12 Historical Walking Tours Sep 06 2020 Venice is a resplendent city of a thousand islands in the middle of a lagoon, which has an elegant and eventful history. Her geographical location and the political and commercial shrewdness of her former rulers, together with the spirit of her citizens once made her the mistress of the seas and master of a great empire. This journal is intended to provide helpful, descriptive and enjoyable routes to explore, as well as providing many interesting historical and architectural facts throughout its passage. As an artist the author has painted a journalistic picture of Venice by visiting the 'Serenissima' each month over the course of a year to enjoy the islands and understand the Venetians themselves, who have battled through centuries of evolution, toil and achievement. Throughout each interesting tour John has recorded many scenes in pen and ink water colour sketches, which he feels will

bring the beauty and history of the Venetian islands to both the armchair reader as well as those who explore the Serenissima.

The Edible Monument Jan 29 2020 The Edible Monument considers the elaborate architecture, sculpture, and floats made of food that were designed for court and civic celebrations in early modern Europe. These include popular festivals such as Carnival and the Italian Cuccagna. Like illuminations and fireworks, ephemeral artworks made of food were not well documented and were challenging to describe because they were perishable and thus quickly consumed or destroyed. In times before photography and cookbooks, there were neither literary models nor a repertoire of conventional images for how food and its preparation should be explained or depicted. Although made for consumption, food could also be a work of art, both as a special attraction and as an expression of power. Formal occasions and spontaneous celebrations drew communities together, while special foods and seasonal menus revived ancient legends, evoking memories and recalling shared histories, values, and tastes. Drawing on books, prints, and scrolls that document festival arts, elaborate banquets, and street feasts, the essays in this volume examine the mythic themes and personas employed to honor and celebrate rulers; the methods, materials, and wares used to prepare, depict, and serve food; and how foods such as sugar were transformed to express political goals or accomplishments. This book is published on the occasion of an exhibition at the Getty Research Institute from October 13, 2015, to March 23, 2016.

Forbidden Prayer Dec 22 2021 This book delineates the attempt, carried out by the Congregations of the Inquisition and the Index during the sixteenth and early seventeenth century, to purge various devotional texts in the Italian vernacular of heterodox beliefs and superstitious elements, while imposing a rigid uniformity in liturgical and devotional practices. The first part of the book is focused on Rome's anxious activity toward the infiltration of Protestant ideas in vernacular treatises on prayer meant for mass consumption. It next explores how, only in the second half of the sixteenth century, once Rome's main preoccupation toward Protestant expansion had subsided, the Church could begin thinking about a move from a rejection of any consideration of the merits of interior prayer to a recovery and acceptance of mental prayer. The final section is dedicated to the primary objective of the Church's actions in purging superstitious practices which was not simply the renewal of the spiritual life of the faithful, but also the control of the religious and social life of many faithful who were uneducated. Based on a careful examination of the archival records of the two Roman dicasteri in question, many of which have only been accessible to scholars since 1998, as well as a close reading of the many of suspect devotional texts themselves, this book offers a fascinating contribution towards a fuller appreciation of the complex landscape that characterized the spiritual realities of early modern Italy.

[Paolo de Matteis](#) Jun 15 2021 This volume represents a long overdue reassessment of the Neapolitan painter Paolo de Matteis, an artist largely overlooked in English language scholarly publications, but one who merits our attention for the quality of his work and the originality of its iconography, as well as for his remarkable ability to respond creatively to his patrons' aesthetic ideals and agendas. Following a meticulous examination of the ways in which posterity's impression of de Matteis has been conditioned by a biased biographical and literary tradition, Livio Pestilli devotes rich, detailed analyses to the artist's most significant paintings and drawings. More than just a novel approach to de Matteis and the Neapolitan Baroque, however, the book makes a significant contribution to the study and understanding of early eighteenth-century European art and cultural history in general, not only in Naples but in other major European centers, including Paris, Vienna, Genoa, and Rome.
