Avian Brood Parasitism Aug 19 2021 Brood parasitism has become one of the most flourishing areas of research in evolutionary ecology and one of the best model systems for investigating coevolution. This subject has undergone remarkable advances during the last two decades, but has not been covered by any book in the 21st century. This book offers a comprehensive and up-to-date overview of the fascinating field of avian brood parasitism. The topics covered include conspecific brood parasitism; evolution and phylogenetic history of avian brood parasites; parasitic behaviour used by brood parasites; adaptations and counter-

adaptations of brood parasites and their hosts at every stage of the breeding cycle (before laying, egg, chick and fledgling stages); factors affecting the evolution of host defences and parasitic attacks; the role of phenotypic plasticity in host defences; mechanisms driving egg recognition and rejection; evolution of nest sharing or nest killing by brood parasite chicks; begging behaviour in parasitized nests and food delivery by host adults; and recognition of conspecifics by juvenile brood parasites. This volume provides a comprehensive reference resource for readers and researchers with an interest in birds, behaviour and evolution, as well as a source of hypotheses and predictions for future investigations into this dynamic subject.

The Vertical City Nov 29 2019 Each century has its own unique approach toward addressing the problem of high density and the 21st century is no exception. As cities try to cope with rapid population growth - adding 2.5 billion dwellers by 2050 - and grapple with destructive sprawl, politicians, planners and architects have become increasingly interested in the vertical city paradigm. Unfortunately, cities all over the world are grossly unprepared for integrating tall buildings, as these buildings may aggravate multidimensional sustainability challenges resulting in a "vertical sprawl" that could have worse consequences than "horizontal" sprawl. By using extensive data and numerous illustrations this book provides a comprehensive guide to the successful and sustainable integration of tall buildings into cities. A new crop of skyscrapers that employ passive design strategies, green technologies, energy-saving systems and innovative renewable energy offers significant architectural improvements. At the urban scale, the book argues that planners must integrate tall buildings with efficient mass transit, walkable neighbourhoods, cycling networks, vibrant mixed-use activities, iconic transit stations, attractive plazas, well-landscaped streets, spacious parks and engaging public art. Particularly, it proposes the Tall Building and Transit Oriented Development (TB-TOD) model as one of the sustainable options for large cities going forward. Building on the work of leaders in the fields of ecological and sustainable design, this book will open readers'

eyes to a wider range of possibilities for utilizing green, resilient, smart, and sustainable features in architecture and urban planning projects. The 20 chapters offer comprehensive reading for all those interested in the planning, design, and construction of sustainable cities.

Half Broken Things Mar 14 2021 A gripping tale of psychological suspense perfect for the readership of Minette Walters and Ruth Rendell, *Half Broken Things* is a novel that peers into the lives of three dangerously lost people...and the ominous haven they find when they find each other. Jean is a house sitter at the end of a dreary career. Steph is nine months pregnant and on the run. And Michael is a thief. Through a mixture of deceit, good luck, and misfortune, these three damaged loners have come together at a secluded country home called Walden Manor. Now all three have found what they needed most: a new beginning, a little kindness, a little love. Living off the manor's riches, tending its grounds and gardens, they leave the outside world far behind and build a happiness so long denied them. That is, until the first unexpected visitor arrives...igniting a chain reaction that is at once spellbinding and disastrous. A stunning, thought-provoking crime novel of chilling moral complexity, *Half Broken Things* is a gripping, haunting exploration of love and our need for it, of the damage done when we go long without it, and the deeds we might be driven to in its name.

A Book of Legal Lists Jun 16 2021 Who are the top ten greatest Supreme Court Justices of all time? Who are the worst ten? Which Supreme Court decision helped lead to the Civil War? What are the ten greatest and worst Supreme Court decisions? What are the ten best courtroom movies? Who was the last to use the Supreme Court spittoon? Who was the first Justice to wear trousers beneath his Supreme Court robes? From John Marshall, the greatest Supreme Court Justice, to Alfred Moore, one of the worst, Bernard Schwartz's *A Book of Legal Lists*--the first ever compiled--provides the Ten Bests and Worst in American law (and also includes answers to 150 trivia questions about the legal world). The lists include the greatest dissents and Supreme Court "might have beens;"

greatest non-Supreme Court judges (Lemuel Shaw, number one on the Greatest list, played a prominent role in recasting common law into an American mold); greatest and worst non-Supreme Court decisions; greatest law books; lawyers (including Alexander Hamilton, Clarence Darrow "Attorney for the Damned", and Abraham Lincoln); trials; and greatest legal motion pictures. Each list entry has a short essay by Schwartz explaining why it is a best or a worst, and it is in these essays that we gain a wealth of information about the legal world. We learn, for instance, that Sherman Minton, number ten on the Worst Supreme Court Justices list, was such a nonentity that he may be best remembered as the last to use the spittoon provided for each Justice behind the bench. Before he became Chief Justice, William H. Rehnquist was known for playing Trivial Pursuit on the bench, Oliver Wendell Holmes wrote 873 opinions for the Court (the most in its history), and Roger Brooke Taney, number ten on the Greatest Supreme Court Justices list, was the first Chief Justice to wear trousers beneath his robes (his predecessors had always given judgment in knee breeches). Stretching back to the early 1700s, the law and the judges who interpret it have maintained a steady presence in our lives--sometimes for better, sometimes for worse. From disappointments like Plessy v. Ferguson (number two on the Ten Worst Supreme Court Decisions list), which gave the lie to the American ideal "that all men are created equal," to lesser known but no less important decisions such as the 1933 United States v. One Book Called "Ulysses", (number nine on the Ten Greatest Non-Supreme Court Decisions) the landmark First Amendment case that eased the law governing censorship, Bernard Schwartz provides legal experts and non-experts alike with entertaining information in a format that can be found nowhere else.

Synopsis of the Biological Data on the Green Turtle Chelonia Mydas (Linnaeus 1758) Jun 04 2020

The Leatherback Turtle Jan 12 2021 The most comprehensive book ever written on leatherback sea turtles. Weighing as much as 2,000 pounds and reaching lengths of over seven feet, leatherback turtles are the world's largest reptile. These unusual sea turtles have a thick,

pliable shell that helps them to withstand great depths—they can swim more than one thousand meters below the surface in search of food. And what food source sustains these goliaths? Their diet consists almost exclusively of jellyfish, a meal they crisscross the oceans to find. Leatherbacks have been declining in recent decades, and some predict they will be gone by the end of this century. Why? Because of two primary factors: human redevelopment of nesting beaches and commercial fishing. There are only twenty-nine index beaches in the world where these turtles nest, and there is immense pressure to develop most of them into homes or resorts. At the same time, longline and gill net fisheries continue to overwhelm waters frequented by leatherbacks. In *The Leatherback Turtle*, James R. Spotila and Pilar Santidrián Tomillo bring together the world's leading experts to produce a volume that reveals the biology of the leatherback while putting a spotlight on the conservation problems and solutions related to the species. The book leaves us with options: embark on the conservation strategy laid out within its pages and save one of nature's most splendid creations, or watch yet another magnificent species disappear.

Overlapping Intellectual Property Rights Sep 27 2019 Providing a comprehensive and systematic commentary on the nature of overlapping Intellectual Property rights and their place in practice, this book is a major contribution to the way that IP is understood. IP rights are mostly studied in isolation, yet in practice each of the legal categories created to protect IP rights will usually only provide partial legal coverage of the broader context in which such rights are actually created, used, and enforced. Consequently, often multiple IP rights may overlap, in whole or in part, with respect to the same underlying subject matter. Some patterns, for instance, in addition to being protected from copying under the design rights regime, may also be distinctive enough to warrant trade mark protection. Each chapter addresses a discrete pair of IP rights and is written by a specialist in that area. Facilitating an understanding of how and when those rights may be encountered in practice, each chapter is introduced by a hypothetical situation setting out the overlap discussed in the chapter. The conceptual and practical issues

arising from this situation are then discussed, providing practitioners with a full understanding of the overlap. Also included is a valuable summary table setting out the legal position for each set of overlapping rights in jurisdictions across Europe, Central and South America, and Asia, and the differences between them.

Wreckers' Key Jul 30 2022 From harbors of Key West to the wilds of Biscayne Bay to the night lights of Miami, Kling's tough-minded heroine has carved out a life that is uniquely her own. Now, in *WRECKERS' KEY*, the fourth book in the series, this fiercely independent woman is at a turning point . . . and in a dangerous duel with an unseen enemy. Before Key West was the party capital of the Florida Keys, it was built by wrecking skippers who in feats of derring-do raced to shipping disasters to save valuable cargos from the ocean depths. But when a friend is killed, Seychelle begins to suspect a chilling scenario: that modern-day wreckers are causing yachts to crash onto the reefs-and killing off whoever gets in the way. Seychelle's dear friend Nestor Frias was piloting a billionaire's luxury power yacht on its maiden voyage when it ran up on a reef. A few days later, Frias was dead. His eight-months-pregnant widow Catalina is distraught, and a host of questions surround both Frias's death and the ship's accident. When Cat turns to Seychelle for help in proving Nestor was murdered, Seychelle embarks on a dangerous course through the shoals and channels of the case and her life, unaware that a greater danger is looming: a murderous human storm designed perfectly for her.

Going Gypsy Jan 24 2022 Almost every couple faces a "now what?" moment as their last kid moves out of the house. There's a big empty nest looming over this new and uncertain stage in their lives. David and Veronica James chose to look at this next phase of life as a beginning instead of an ending. Rather than staying put and facing the constant reminders of empty bedrooms and backseats, a plan began to develop to sell the nest and hit the highway. But could a homebody helicopter mom learn to let go of her heartstrings and house keys all at once? Filled with a sense of adventure and humor, *Going Gypsy* is the story of a life after raising kids that is a celebration of new experiences. Pulling the rip cord on the daily grind, David and Veronica throw caution to the wind, quit their jobs, sell their house, put on their vagabond shoes, and go gypsy in a beat-up old RV found on eBay. On a journey of over ten thousand miles along the back roads of America (and a hysterical, error-infused side trip into Italy), they conquer old fears, see new sights, reestablish bonds with family and friends, and transform their relationships with their three grown children from parent-child to adult-to-adult. Most importantly, they rediscover in themselves the fun-loving youngsters who fell in love three decades prior.

American Jewish Year Book 2016 May 04 2020 The American Jewish Year Book, now in its 116th year, is the annual record of the North American Jewish communities and provides insight into their major trends. Part I presents a forum on the Pew Survey, "A Portrait of American Orthodox Jews." Part II begins with Chapter 13, "The Jewish Family." Chapter 14 examines "American Jews and the International Arena (April 1, 2015 - April 15, 2016), which focuses on US-Israel Relations. Chapters 15-17 analyze the demography and geography of the US, Canadian, and world Jewish populations. In Part III, Chapter 18 provides lists of Jewish institutions, including federations, community centers, social service agencies, national organizations, synagogues, Hillels, day schools, camps, museums, and Israeli consulates. In the final chapters, Chapter 19 presents national and local Jewish periodicals and broadcast media; Chapter 20 provides academic resources, including Jewish Studies programs, books, articles, websites, and research libraries; and Chapter 21 presents lists of major events in the past year, Jewish honorees, and obituaries. An invaluable record of Jewish life, the American Jewish Year Book illuminates contemporary issues with insight and breadth. It is a window into a complex and ever-changing world. Deborah Dash Moore, Frederick G. L. Huetwell Professor of History and Judaic Studies, and Director Emerita of the Frankel Center for Judaic Studies, University of Michigan A century from now and more, the stately volumes of the American Jewish Year Book will stand as the authoritative record of Jewish life since 1900. For anyone interested in tracing the long-term evolution of Jewish social, political, religious, and cultural trends from an objective yet passionately Jewish perspective, there simply is no substitute. Lawrence Grossman, American Jewish Year Book Editor (1999-2008) and Contributor (1988-2015)

The Change Aug 31 2022 GOOD MORNING AMERICA BOOK CLUB PICK "Miller triumphs...THE CHANGE is that rare treat: a suspenseful story with great pacing, memorable characters, and an engaging voice. Fantastic in every way, this fierce anthem against misogyny is a smash."--Publishers Weekly (starred review) "A pointed, punchy, and potent thriller...wry and clever, serious and exacting, and masterfully suspenseful."--Booklist (starred review) Big Little Lies meets The Witches of Eastwick—a gloriously entertaining and knife-sharp feminist revenge fantasy about three women whose midlife crisis brings unexpected new powers—putting them on a collision course with the evil that lurks in their wealthy beach town. In the Long Island oceanfront community of Mattauk, three different women discover that midlife changes bring a whole new type of empowerment... After Nessa James's husband dies and her twin daughters leave for college, she's left all alone in a trim white house not far from the ocean. In the quiet of her late forties, the former nurse begins to hear voices. It doesn't take long for Nessa to realize that the voices calling out to her belong to the dead—a gift she's inherited from her grandmother, which comes with special responsibilities. On the cusp of 50, suave advertising director Harriett Osborne has just witnessed the implosion of her lucrative career and her marriage. She hasn't left her house in months, and from the outside, it appears as if she and her garden have both gone to seed. But Harriett's life is far from over—in fact, she's undergone a stunning and very welcome metamorphosis. Ambitious former executive Jo Levison has spent thirty long years at war with her body. The free-floating rage and hot flashes that arrive with the beginning of menopause feel like the very last straw—until she realizes she has the ability to channel them, and finally comes into her power. Guided by voices only Nessa can hear, the trio of women discover a teenage girl whose body was abandoned beside a remote beach. The police

have written the victim off as a drug-addicted sex worker, but the women refuse to buy into the official narrative. Their investigation into the girl's murder leads to more bodies, and to the town's most exclusive and isolated enclave, a world of stupendous wealth where the rules don't apply. With their newfound powers, Jo, Nessa, and Harriett will take matters into their own hands...

Invasion Ecology Apr 02 2020 This new edition of *Invasion Ecology* provides a comprehensive and updated introduction to all aspects of biological invasion by non-native species. Highlighting important research findings associated with each stage of invasion, the book

provides an overview of the invasion process from transportation patterns and causes of establishment success to ecological impacts, invader management, and post-invasion evolution. The authors have produced new chapters on predicting and preventing invasion, managing and eradicating invasive species, and invasion dynamics in a changing climate. Modern global trade and travel have led to unprecedented movement of non-native species by humans with unforeseen, interesting, and occasionally devastating consequences. Increasing recognition of the problems associated with invasion has led to a rapid growth in research into the dynamics of non-native species and their adverse effects on native biota and human economies. This book provides a synthesis of this fast growing field of research and is an essential text for undergraduate and graduate students in ecology and conservation management. Additional resources are available at www.wiley.com/go/invasioneecology

Critical Thinking, Thoughtful Writing Nov 02 2022 Emphasizing that thinking well and writing well are invariably connected, CRITICAL THINKING, THOUGHTFUL WRITING, 6e delivers thorough coverage of the writing process, going beyond the traditional rhetoric to teach you how to evaluate sources, images, and arguments. This rhetoric with readings introduces the process of thinking critically as a powerful approach to writing, to critically evaluating electronic and visual media, and to life in general. Each chapter focuses on a critical-thinking skill--such as problem solving or analysis of complex issues--that is explored through Thinking-Writing Activities and thematically linked readings. Each of the readings challenges you to read actively, think critically, and then write about the readings. The Sixth Edition offers provocative new readings, a four-color interior design, expanded writing projects that help you fully interact with the

writing process, annotations to student essays, and more in-chapter questions to help you reflect on the material. Important Notice: Media content referenced within the product
